Animal Feed*	724	4
Disposal	9,764	56

*includes food not suitable for human consumption sent to animal feed

** % may not add up to 100 due to rounding

Glossary

Term	Definition
Food surplus	Unsold food. This includes donations, animal feed and waste.
Donations	Food donations to charity for human consumption.
Animal Feed	Food surplus used for feeding animals. This includes food sold as animal feed and food donated to zoos
Food waste	Unsold food that is disposed of: “Food waste is any food, and inedible parts of food, removed from the food supply chain to be recovered or disposed (including composted, crops ploughed in/not harvested, anaerobic digestion, bio-energy production, co-generation, incineration, disposal to sewer, landfill or discarded to sea)”. <i>This includes both food that is safe and not safe for human consumption. It does not include food donated or sent to animal feed.</i>
